I'm a student whose interests are mainly focused on computers and other technologies. I'm searching for a role that involves working with computers. I have developed my leadership and problem-solving skills with my 9 years of Scouting and have put these to practise when working towards stage 4 sailing. I have also developed my teamwork skills by playing in a rugby team for over 8 years.

## EXPERIENCE

### APLYID

I spent one week of work experience at APLYiD where I helped to code an API and updated the programming for the company's email signature generator which is used company wide.
